DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 6,152,427 to Hoslett.

Hoslett discloses a truck cap lifting and storage assembly comprising: a first elongated member 12 and a second elongated member 13 each having a first end, a second end, and a top side, a bottom side, and pair of lateral side edges; a lifting assembly 14 being attached to each of the first and second elongated members such that the first and second elongated members may be selectively lifted or lowered, the lifting assembly 14 supporting the first 12 and second 13 elongated members such that the elongated members are spaced from each other and are orientated parallel to each other; and wherein the truck cap may be positioned on the elongated members and selectively raised or lowered by the lifting assembly.

Allowable Subject Matter

Claim 6 is allowed over the prior art of record.

Art Unit: 3654

Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
